### 3.3 Strategy Building Block Requirements for EURO STOXX® 50 Index Options

The following requirements apply for the EURO STOXX® 50 Index Options. The Strategy Sets (CBB Sets) are defined in the General Supplement to the LPA, Annex Table.

Expiration	CBB Applicable?	CBB Set
Monthly	Yes	5
Weekly and Month-End	Yes	1

### 3.4 Corporate Actions

In the case of a spin-off, where a basket option is created from the former product, the following applies:

- The basket will have the same Building Block requirements as the former product (except for PBB), becoming effective the date of the listing of the basket.
- If the former product was part of a package, the basket will replace the former product in the package, effective the first day of the next calendar month.
- Upon re-listing of the former product, the re-listed product will have the same LP requirements as the former product (except for PBB), becoming effective the date of the re-listing of the former product.
- If the former product was part of a package, the re-listed product will replace the former product or the basket in the package, effective the first day of the next calendar month.

In case of a corporate action e.g. a stock split, where the reference price of the underlying is adjusted, the spread and size class are reviewed to reflect the adjusted price while keeping the economics of the requirements unchanged, effective the first calendar day of the next calendar month. As part of the regular Corporate Action communication, the information about adjustments in Spread and Size class will be made available on the Eurex web site under the following link:

**Eurex Exchange > Rules & Regs > Corporate actions > Corporate action information**

### 3.5 Package Review

If one of the underlying instruments leaves the Euro STOXX® 50 Index, the respective single stock option will be replaced by the single stock option on the underlying entering the Euro STOXX® 50 Index with effect from the first trading day of the next calendar month following the entering of the respective single stock option. The single stock option on the underlying leaving the Euro STOXX® 50 Index has to be quoted until the end of the month where the index change took place.

Changes to the packages for the above-mentioned reasons will be reflected in the quotation parameters table (cp. Sec. 4.2) as of the first trading day of the next calendar month.
